

Registration for the Corona vaccination for children from 5 to 11 years

The Corona vaccination is offered at pediatricians, general practitioners and various public vaccination centers. All possibilities for getting vaccinated can be found here: www.ooe-impft.at

Corona-Helpline of Upper Austrian school doctors

The federal education board (Bildungsdirektion) offers information for students, parents and educators/teachers under 0732/7071-9222 Monday to Friday from 8:00 – 13:00

Five good reasons why children should get vaccinated

- ★ Good for your child: The vaccine is the best way to prevent your child from developing a severe case of COVID-19 or long COVID. One in 1,000 children who are infected become seriously ill.
- ★ Good for family and friends: The vaccine lowers the risk of passing the virus on to others.
- ★ Good for the healthcare system: The vaccine minimises the strain on the healthcare system, preventing operations and treatments from having to be postponed.
- ★ Good for kindergarten, school and recreation: The best chance of having a safe, „normal“ everyday life.
- ★ Good for fighting the pandemic: The vaccine reduces the chance of virus mutations and is the most effective way to end the pandemic.
